

## CLAIMS

- ✓ 1. An electronic device comprising an accessory connector for connecting accessories to the device, wherein the device comprises a support element which is arranged to support the accessory connected to the accessory connector.
- 5 2. An electronic device as claimed in claim 1, wherein the support element comprises fastening elements for fastening the accessory to the support element.
3. An electronic device as claimed in claim 2, wherein the accessory is arranged to be fastened to the support element by sliding.
- 10 4. An electronic device as claimed in claim 1, wherein the support element is arranged to move in respect of the base part of the device.
- 5 5. An electronic device as claimed in claim 4, wherein the support element is arranged to turn in respect of the base part of the device.
- 15 6. An electronic device as claimed in claim 4, wherein the support element is arranged to slide in respect of the base part of the device.
7. An electronic device as claimed in claim 1, wherein the support element is arranged detachably in the base part of the device.
- 20 8. An electronic device as claimed in claim 1, wherein the support element is a lid, which is movable onto the base part.
9. An electronic device as claimed in claim 1, wherein the support element comprises a locking element for locking the accessory to the support element.
- 25 10. An electronic device as claimed in claim 1, wherein the support element comprises fastening elements for fastening the accessory which is detached from the accessory connector to the support element.
11. An electronic device as claimed in claim 1, wherein the accessory connector is fitted to the support element.
- 30 ✓ 12. An electronic device comprising a base part and an accessory connector arranged to the base part for connecting accessories to the device, wherein the device comprises a support element which is arranged to support the accessory connected to the accessory connector.
- 35 ✓ 13. An accessory for an electronic device, comprising a connector for connecting the accessory to an accessory connector of the electronic device, wherein the accessory comprises a support element which is arranged

to support the accessory to the electronic device when the connector is connected to the accessory connector.

14. An accessory as claimed in claim 12, wherein the support element comprises fastening elements for fastening the device to the support element.

15. An accessory as claimed in claim 12, wherein the support element is arranged to move in respect of the actual accessory part.

16. An accessory as claimed in claim 12, wherein the support element is arranged detachably in the actual accessory part.

10 17. An accessory as claimed in claim 12, wherein the support element comprises a locking element for locking the electronic device to the support element.

15 ✓18. A support element, which is arranged to support an accessory connector of an electronic device and a connector of an accessory, which are connected to each other.

19. A support element as claimed in claim 18, wherein it is fitted to the electronic device.

20 20. A support element as claimed in claim 18, wherein it is fitted to the accessory.

21. A support element as claimed in claim 18, wherein it comprises fastening elements for fastening the accessory which is detached from the accessory connector to the support element.

22. A support element as claimed in claim 18, wherein it comprises the accessory connector.
